Please note that due to the origin of all natural stone products, all sizes, including thickness, are approximate and from time to time the coverage may be subject to some small variation. The quoted pack coverage in the Pavestone Catalogue is approximate and includes additional allowances for joints which varies according to the individual laying pattern used.

Also, since one of the special qualities of natural stone is that there is a subtle blend of shades in each colour, we cannot guarantee colour matches. Remember to follow the laying instructions in the Pavestone Catalogue.

Most of our natural stone is sold only in full packs of mixed sizes. Part packs are non-returnable.

§ Denotes non-stock items. Available to special order only, non-returnable.
