		600 x 450 mm	12
		600 x 300 mm	15
		450 x 450 mm	13
		300 x 300 mm	10

When laying natural stone take care to ensure that you lay the flags with the larger smooth surface uppermost. The edges of the flags are chamfered and are intended to taper neatly downwards as illustrated in the Pavestone Catalogue. The smaller side of the paving is unfinished and its appearance and consistency of finish is not guaranteed.

Please note that due to the origin of all natural stone products, all sizes, including thickness, are approximate and from time to time the coverage may be subject to some small variation. The quoted pack coverage in the Pavestone Catalogue is approximate and includes additional allowances for joints which vary according to the individual laying pattern used.

Also, since one of the special qualities of natural stone is that there is a subtle blend of shades in each colour, we cannot guarantee colour matches. Remember to follow the laying instructions in the Pavestone Catalogue.

Most of our natural stone is sold only in full packs of mixed sizes. Part packs are non-returnable.

§ Denotes non-stock items. Available to special order only, non-returnable.
